Financial support

A Conference Grant is a fixed financial contribution that takes into consideration the budget request of the applicant and the outcome of the evaluation of the application by the delegated person(s). Conference Grants do not necessarily cover all the expenses related to participating in a given conference. A Conference Grant is a contribution to the overall travel, accommodation, and meal expenses of the selected Grantee.

Max 2.000€ for face-to-face events, including Conference Fees.

ITC Conference Grants remain the same: anywhere in the world.

Documentary evidence of the conference fee amount must be provided by the applicant and in kind, must be archived by the Grant Holder along with the relevant administrative documents.

Receiving your grant

If you have been selected as an ITC Conference Grant Recipient, you will receive your grant after the conference. After your conference, the eCOST System will automatically ask you to submit a Scientific Report, which you need to provide within 30 days after the Conference has ended. We will send the grant to your bank account once your scientific report has been approved.

In addition, we will ask you to present the results of your conference grant at the next Management Committee meeting or to write a short blog entry for our website. Please remember to ask someone to take a picture of you during your presentation so that we can showcase your involvement on our website and in our newsletter (with your prior consent, of course)

CLARIFICATIONS

The COST Association and the Grant Holder of the Action cannot be considered as being a grantee's employer. Grantees must make their own arrangements for all provisions related to personal security, health, taxation, social security, and pension matters.

If you still have any doubts about the eligible expenses that can be claimed, the appropriate supporting documents, or how to complete the OTRR, **please contact the Grant Awarding**
